

511 SCHEDULE OF CHARGES

511.1 METERED WATER

All water shall be supplied to customers by meter measurement, except as herein otherwise provided, at the rates established by the Board. Prevailing rate schedules may be obtained from Customer Service or by visiting www.dmww.com, clicking on "Service Areas" and then selecting the service area in question. (revised 2008)

511.2 FIRE PROTECTION CHARGES

511.2.1 Annual charges for all unmetered fire protection connections shall be at rates established by the Board.

511.2.2 Fire protection service charges will be determined as follows:

511.2.2.1 One tenant + one building + one connection to Des Moines Water Works owned and/or operated distribution system = one charge according to size.

511.2.2.2 One tenant + one building + more than one connection to Des Moines Water Works owned and/or operated distribution system = each connection charged by size.

511.2.2.3 Shopping centers, industrial, and apartment complexes shall be charged for each fire service connection to the Des Moines Water Works owned and/or operated distribution system by size.

511.3 UNIFORM TAP CHARGES

All taps larger than 12" and all mains larger than 24" to be tapped for any size will be done on a labor-and-materials basis. Price estimates may be quoted on request.

511.3.1 Tap retirement charges for other than corporations are based on the size of the main that is tapped, rather than the size of the tap. Charges for retirements on concrete mains and mains larger than 24" will be the current prices of materials and labor.

511.3.2 Charges for damaged meters larger than those priced on the Schedule of Charges will be the actual costs of materials and labor for repair or replacement.

511.4 MISCELLANEOUS CHARGES

The Board of Trustees, from time to time, may establish, abolish, or change miscellaneous charges for services and/or equipment provided to its customers. These charges shall be reviewed periodically and based as much as possible on costs of service.

511.5 ADJUSTMENTS TO CHARGES

The Board of Trustees grants the CEO and General Manager, or his designee, authority to adjust charges on a case-by-case basis where in his or her judgment the case warrants an adjustment.

DES MOINES WATER WORKS

8"	\$222.50	\$333.75
10"	\$350.00	
12"	\$500.00	

An additional charge shall be made for filling gravity or pressure storage tanks based on the total storage capacity of such tanks at the prevailing rate charged for water at the location.

The annual stand-by charge for fire service to a private property shall be paid by the owner of the property which is served. If such property is owned by a public agency or it is a part of a public thoroughfare, the responsible agency or government desiring to establish and maintain the service must agree in writing to make the payments and show evidence of their ability to make proper levy to obtain funds for such purpose.

**DES MOINES WATER WORKS
SCHEDULE OF CHARGES**

1. **SYSTEM DEVELOPMENT FEE STRUCTURE** (effective July 14, 2009)
System development fees are required for all new water services in the City of Des Moines, Pleasant Hill, Cumming, Alleman, and Unincorporated Polk County. System Development Fees will be based on the tap size and are as follows:

Des Moines

	1 inch	2 inch	4 inch	6 inch	8 inch	12 inch

System Development Fees for projects with both fire and domestic services, or any combination of multiple services, will be the total of all of the System Development Fees added together.

System Development Fees for projects with metered combination fire and domestic services (master metered) shall be considered domestic services with fees being charged accordingly.

System Development Fees for subdivisions will be based upon the number and size of service stubs to be installed within the subdivision. All service stubs within subdivision will be considered domestic stubs unless sufficient evidence is provided to indicate otherwise.

The foregoing System Development Fees shall not imply for connections to a new water main constructed where no water main previously existed or a new water main is constructed to replace a private water main. The System Development Fees in such cases will be determined on a case by case basis and will be determined prior to construction of the new water main. (Revised 2009)

System Development Fees will not be required for replacement taps of equal size. Existing taps that are less than one inch in diameter and are being replaced with new one-inch taps will not require System Development Fees. Any replacement tap that is to be a larger size than the original tap, other than upsizing to a one-inch diameter tap, will require a fee that will be the difference between the fee for the new tap size and the fee for the original tap size.
