

DES MOINES WATER WORKS
Board of Water Works Trustees

Agenda Item No. III-A
Meeting Date: June 28, 2016
Chairperson's Signature Yes No

AGENDA ITEM FORM

SUBJECT: 2015 Audit Reports

SUMMARY:

Our audit firm, RSM US LLP (formerly McGladrey LLP), has completed their audit of our financial statements for the year ended December 31, 2015. The reports prepared include:

- Des Moines Water Works Financial Report
- Report to the Board of Water Works Trustees
 - SAS (Statement of Accounting Standards) letter
 - Management Representation
 - Representation Letter (Billing and Collecting Agent for City of Des Moines)
 - Independent Auditor's Report on Internal Control Over Financial Reporting
- Collection Agent Report for Sewer Treatment Works for the City of Des Moines
- Collection Agent Report for Storm Water Utility for the City of Des Moines
- Collection Agent Report for Solid Waste Collection and Disposal for the City of Des Moines

Within their Independent Auditors' Report, RSM has issued an unqualified or "clean opinion" on our financial statements, meaning they found no material misstatements within our financial records. Kristen Hughes and Andrew Steckel, from RSM, reviewed the reports at the June 14th meeting of the Finance Committee.

FISCAL IMPACT:

No impact to budget.

RECOMMENDED ACTION:

Receive and file 2015 Financial Audit Reports prepared by RSM US LLP, and authorize staff to distribute such reports to the appropriate agencies. This includes the Financial Report, Auditor's Report, and the Collection Agent Reports for the City of Des Moines.

BOARD REQUIRED ACTION:

Motion to receive and file 2015 Financial Audit Reports and distribute reports to the appropriate agencies.

Independent Auditor's Report

RSM US LLP

Board of Water Works Trustees
Des Moines Water Works
Des Moines, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and fiduciary fund of the Des Moines Water Works (Water Works) as of and for the year ended December 31, 2015, and the related notes to the basic financial statements, which collectively comprise the Water Works' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the fiduciary fund of the Des Moines Water Works as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As explained in Note 5, the Water Works adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, which restated beginning net position of the business-type activities to record the net pension liability and deferred outflows and inflows of resources. Our opinion is not modified with respect to this matter.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 8, other postemployment benefit plan schedules on page 43 and pension plan schedules on pages 44 through 48, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Des Moines Water Works

Management's Discussion and Analysis Year Ended December 31, 2015

Our Management's Discussion and Analysis (MD&A) of Des Moines Water Works' (Water Works) financial performance provides an overview of the utility's financial activities for the year ended December 31, 2015. Please consider this information in conjunction with the financial statements and the accompanying notes to basic financial statements that follow this section.

Overview of Business

The service area of the Water Works has expanded significantly since its emergence as a public water utility in 1919. In addition to serving customers within the City of Des Moines, Water Works provides wholesale water service based on long-term water contracts to surrounding municipalities and rural water districts, accounting for roughly 30 percent of total water revenues. This service area spans approximately 400 square miles, including most of Polk County and communities in eastern Dallas County and northern Warren County. The utility also provides billing and collection services on a contractual basis to wholesale customers and billing and collection services to the City of Des Moines for wastewater treatment, solid waste collection and the storm water utility.

As the utility's service area has expanded, so too has the need for water storage facilities, booster stations and additional treatment capacity to meet peak demand requirements. The most economical approach for the Water Works has involved utilizing these facilities to supply multiple customers. Contractual service users share in the cost of these joint-use facilities, which allows for meeting peak use demands and also allows some users to participate in lower off-peak or purchased capacity water rates. Financial participation in the construction of these facilities includes initial cash contributions or payments of debt service for the improvements and annual payments of operating and maintenance costs. Ownership of these facilities is maintained by the Water Works.

Water Works operates three surface-water treatment plants for the benefit of roughly 500,000 central Iowans. The source waters for these plants include the Raccoon River, the Des Moines River, and ground water sources that are under the direct influence of each of these rivers. Additionally, a number of off-river storage sites are used that allow water from the Raccoon River to be momentarily stored in ponds, lakes, and reservoirs. These sources are used to provide adequate supply to our customers in a manner that balances the factors of finished water quality, overall treatment expense, and regulatory compliance.

Governance of the Water Works is vested in a five-member Board appointed by the Mayor of the City of Des Moines with the approval of the City Council. Trustees serve for six-year staggered terms. The Board has complete control of Water Works' management and employs approximately 208 full-time and 15 part-time or seasonal employees.

The utility has adopted an annual activity-based budgeting methodology and performs an annual cost of service study to assist the Board in rate-setting policy.

Financial Highlights

- In 2015, operating revenues of \$54,002,598 increased 5.1 percent from 2014 while operating expenses increased by 7.14 percent to \$49,628,430 over 2014.
- During the year, Water Works had operating income of \$4,374,168 and change in net position of \$9,940,622.
- Water Works' net position increased as a result of operations. As of December 31, 2015, total assets were \$324,458,386; total liabilities were \$81,405,978; deferred outflows of resources were \$15,317,352, deferred inflows of resources were \$2,488,452; resulting in net position of \$255,881,308.

Des Moines Water Works

Management's Discussion and Analysis Year Ended December 31, 2015

Overview of the Financial Statements

Management's Discussion and Analysis (MD&A) serves as an introduction to the financial statements and the MD&A represents management's examination and analysis of the Water Works' financial condition and performance. The financial statements report information about the utility using full accrual accounting methods as utilized by similar entities in the private sector.

The statements of net position provides information about the Water Works' assets, deferred outflows, liabilities, deferred inflows and net position; thereby measuring the Water Works' liquidity and solvency. Liquidity is a measure of the utility's ability to meet current obligations (those due within one year). Solvency is a similar concept, but measures the ongoing ability to meet obligations over a longer term.

The statement of revenues, expenses and changes in net position presents the results of the Water Works' revenues and expenses over the course of the fiscal year and provides information about the utility's recovery of costs. Water rates are established by the Board of Trustees and are based on the utility's annual Cost of Service Study. The Cost of Service Study estimates annual revenue requirements through an analysis of operational and maintenance expenses, debt service requirements, anticipated capital needs and return on capital. The Study provides a core of information not only for the trustees and staff at Des Moines Water Works, but also for the customers ultimately affected by our decisions.

The statement of cash flows presents cash receipts, cash disbursements and net changes in cash resulting from operations, noncapital financing activities, capital and related financing and investing activities. This statement details where cash resources come from and how they are used.

The notes to basic financial statements provide required disclosures and other information that are essential to a full understanding of data provided in the statements. The notes supplement the basic financial statements by presenting information about the Water Works' accounting policies, significant account balances and activities, material risks, obligations, commitments and contingencies.

Condensed Financial Information

The following condensed financial information serves as key financial data and indicators for management, monitoring and planning.

Water Works implemented GASB Statement No. 68 for the year ended December 31, 2015. This required net position at the beginning of the year to be restated by \$3,179,659. The 2014 amounts presented in management's discussion and analysis have not been restated for this GASB implementation.

Des Moines Water Works

Management's Discussion and Analysis Year Ended December 31, 2015

Financial Analysis

Year ended December 31, 2015: Current assets increased 22.68 percent. This is primarily due to receivables from wholesale customers for capital projects being built by DMWW. The first project is an ASR well, well pump, well house and piping being built in the southwestern part of our service area. This will serve the City of West Des Moines and is fully funded by the City of West Des Moines and West Des Moines Water Works. The second project is a joint project with the City of Johnston to design and construct a feeder main from the Saylorville Water Treatment Plant to increase flow to customers in the City of Johnston.

Other lines in the current assets section include cash, accounts receivable, inventory, and prepaid expenses. These accounts fluctuate from year to year and have fairly minor changes from 2014 to 2015.

Other noncurrent assets decreased 42.76 percent. Purchased capacity funds were drawn down to reimburse the Water Works for projects benefitting the core network. Additionally, operating reserves were reduced because of a revenue shortfall due to lower than budgeted consumption in 2015.

Deferred outflows of resources increased nearly \$13,000,000. Water Works implemented GASB Statement No. 68 for the year ended December 31, 2015. This requires recognizing deferred outflows/inflows of resources for pension plans. The deferred outflows show the effects of actuarial differences, changes in assumptions, and differences between actual and projected earnings on plan investments. For the DMWW Pension Plan, the net deferred outflows of resources booked in 2015 is nearly \$3,300,000. For IPERS, the balance as of December 31, 2015 is approximately \$10,100,000. Offsetting the increase in deferred pension outflows is the amortization of the difference between the reacquisition price and the net carrying amount of the 2006 bonds which were advanced refunded in 2012.

Current liabilities increased 3.12 percent. The primary drivers are the increase in construction payables at the end of the year along with a reserve being established for workers' compensation claims. Offsetting the increases is a lower balance in accounts payable as of December 31, 2015 which is merely due to timing of invoice receipts and issuing payable checks. The balance in accounts payable can vary widely based on the timing of payments at the end of the year.

Noncurrent liabilities increased nearly \$16,000,000. Another requirement of GASB Statement No. 68 is recognizing a net pension liability for the difference between the total pension liability and fiduciary net position. The net pension liability booked for the DMWW Pension Plan is approximately \$5,600,000 while the net pension liability for IPERS is approximately \$10,700,000. Other noncurrent liabilities include unearned revenue being amortized over a period of 10 to 20 years and the liability for other postretirement benefits. This shows the liability for providing health care benefits to retirees of Des Moines Water Works.

Long-term debt decreased 14.49 percent in 2015 due to the reclassification of \$5,406,000 of the scheduled 2016 debt service payments to short-term liabilities.

Deferred inflows of resources is a new line on the Water Works' financial statements in 2015 due to the implementation of GASB Statement No. 68. This requires recognizing deferred outflows/inflows of resources for pension plans. The deferred inflows show the effects of actuarial differences, changes in assumptions, and differences between actual and projected earnings on plan investments. For December 31, 2015, the amount is nearly \$2,500,000 relating to IPERS.

Water sales were up 5.25 percent in 2015. Consumption was relatively flat compared to 2014 but the moderate rate increase in 2015 contributed to the overall increase in sales revenue.

Des Moines Water Works

Management's Discussion and Analysis Year Ended December 31, 2015

Revenue for billing and collection services was up 7.61 percent due to changing the methodology for billing and collecting for City of Des Moines' services. It is now based on a percentage of collections rather than a per bill fee.

Connection fees were up 57.03 percent compared to 2014. These fees can fluctuate widely from year to year depending on the level of development experienced within the utility's service areas.

Purchased capacity revenues were flat compared to 2014. This represents the continued amortization of unearned revenue. This unearned revenue represents cash contributions to fund the water treatment plant located in the north part of the service area and previous years' cash contributions from wholesale customers to fund the L.D. McMullen Water Treatment Facility and to increase capacity in the overall core network. Financial participation in the construction of the plants allows users to participate in lower purchased capacity water rates. Unearned revenue balances are amortized to purchase capacity revenue over the length of the contract, generally 10 to 20 years.

Revenue from other sales and services decreased 9.09 percent in 2015. Included in this line are numerous revenue items in the utility including reconnect fees, credit card convenience fees, stop box repairs, distribution system repairs, operating and maintenance costs for shared-use facilities, lab testing, etc.

Operating labor and benefits increased 15.52 percent. There were modest increases due to wage rate increases and increased expenses for employer paid medical insurance premiums. The biggest driver of the increase is related to implementing GASB Statement No. 68 to not only recognize contributions to the DMWW pension plan and IPERS but includes expenses for amortizing the net effect of change in proportion and differences between entity contributions and proportionate share of contributions.

Chemical expenses were up 9.01 percent in 2015. Chemical prices saw modest increases while continued raw water quality and treatment plant allocations adversely affected costs as well.

Utilities expense is down 6.58 percent from 2014. Energy costs for the three treatment plants were the biggest driver of the decrease.

Corporate insurance increased \$800,000. This increase is related to workers' compensation claims paid in 2015 as well as setting up a reserve for future expenses on existing claims. The Water works became self-insured for workers' compensation insurance in 2014 and also maintains a stop loss policy for workers compensation claims over \$500,000.

Purchased services decreased by 19.07 percent compared to 2014. This equates to nearly \$1.4 million. The main driver of this decrease is the lime residual removal at the McMullen Treatment Plant. Water Works changed contractors in 2015 and also the timing of payments to the contractor. At the McMullen Treatment Plant, the contractor moves the residuals to a holding area and then is paid once the residuals are applied offsite by end-users. Additionally, the number of main breaks in 2015 was low compared to a record high year in 2014. The need for contractors to repair main breaks and restore street holes was not needed in 2015 as it was in 2014. Offsetting these decreases to purchased services is an increase for legal fees relating to the nitrate lawsuit.

Materials, supplies and equipment increased by 2.36 percent. This includes items such as postage, inventory items and repair parts for the maintenance of the treatment facilities, distribution system and fleet vehicles.

Other expenses decreased 6.42 percent. This includes costs for casualty losses from damages due to main breaks, bad debt write-off, and utility-wide training.

Des Moines Water Works

Management's Discussion and Analysis Year Ended December 31, 2015

Investment income decreased \$453,000. This not only includes investment income, but also accounts for the unrealized gain/loss and truing up of accrued interest. In 2014, Water Works recognized interest received from the City of Altoona for their share of the joint eastside tower project.

Interest expense decreased nearly 10 percent due to decreasing interest payments on outstanding debt.

Capital contributions were \$6.4 million in 2015. This is an increase of \$2.4 million over 2014. Water Works recognized \$1.9 million from the City of West Des Moines and West Des Moines Water Works for the ASR well being built for the benefit of West Des Moines. Contributions of \$1.2 million from the City of Johnston were recognized for their portion of the joint feeder main project from the Saylorville Water Treatment Plant. And finally, \$3.1 million was recognized for water mains conveyed by contractors for new development in the Water Works' service areas. These contributions can fluctuate widely from year to year.

The aforementioned fluctuations result in an overall increase in net position of 4.04 percent, the result of a 5.10 percent increase in operating revenues and an increase in operating expenses of 3.88 percent.

Capital Assets and Debt Administration

During 2015, net capital assets increased \$13,864,034 or 4.90 percent. In addition to replacing deteriorating water mains, the utility continues to reinvest in water treatment, production, storage and capacity. There were no significant changes to the condition of infrastructure assets, nor were there any changes made to standard service lives of those assets.

Water Works' long-term debt was \$34,149,033 as of December 31, 2015. The decrease of \$5.8 million is due to scheduled principal payments.

Economic Factors

Due to the Water Works' large concentration of residential customers, weather impacts revenue to a greater degree than do economic cycles. Water Works budgets revenues and expenses based on anticipated consumption for a "normal" weather year. Most service areas received a modest water rate increase in 2015.

Des Moines Water Works

Notes to Basic Financial Statements

Note 1. Nature of Business, Reporting Entity and Significant Accounting Policies

Nature of business: Des Moines Water Works (Water Works) is managed and controlled by the Board of Water Works Trustees of the City of Des Moines, Iowa (the Board), which exists under the provisions of Chapter 388 and other relevant statutes of the Code of Iowa. The five-member Board is appointed by the Mayor of Des Moines with the approval of the City Council. Trustees serve for six-year staggered terms.

Water Works is exempt from federal income tax pursuant to Internal Revenue Code Section 115 which provides for exemption of divisions of state and local governments.

Water Works provides water and other services to retail and wholesale customers in the City of Des Moines (the City) and surrounding communities.

Reporting entity: Accounting principles generally accepted in the United States of America require the reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Water Works has authority to issue bonded debt without the approval of another government. It has the right to sue and be sued, and has the right to buy, sell, lease or mortgage property in its own name. Based on these criteria, the Water Works is considered a primary government and there are no other organizations or agencies whose financial statements should be combined and presented with these financial statements.

Significant accounting policies:

Basis of accounting and measurement focus: The Water Works accounts for its activities as an enterprise fund. The economic measurement focus and the accrual basis of accounting are used by the Water Works. Under the accrual basis of accounting, revenue is recognized when earned and expenses are recognized when the liability has been incurred. Under this basis of accounting, all assets and deferred outflows and all liabilities and deferred inflows associated with the operation of the Water Works are included in the statement of net position.

The financial statements of the Water Works are prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Government Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards, which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and investments: For the purpose of the statement of cash flows, Water Works considers cash balances maintained in demand deposit accounts at financial institutions to be cash. Excess cash invested temporarily in financial institutions is considered an investing activity and is not considered to be cash.

Investments as of December 31, 2015 were in U.S. government or agency obligations and are stated at fair value, based on quoted market prices.

Des Moines Water Works

Notes to Basic Financial Statements

Note 1. Nature of Business, Reporting Entity and Significant Accounting Policies (Continued)

Revenue recognition: Customers served by Water Works are billed on a monthly cyclical basis based on usage. Water Works accrues estimated unbilled water revenues for services rendered from the last billing date through year-end.

Operating revenues and expenses: Operating revenues include revenues resulting from the sale of water and related services. Revenues from the sale of water are based on billing rates, which are applied to customers' consumption of water. Operating expenses include expenses for water treatment, distribution, depreciation, customer service and sales, administrative and general. Nonoperating revenues and expenses include those derived from capital and related financing activities, noncapital financing activities and investing activities.

Capital contributions: Water Works receives capital contributions under cost sharing arrangements made with area municipalities for capital projects and infrastructure improvements to the water system. These arrangements are formalized in 28E agreements executed and approved the Board of Water Works Trustees. Revenue is recorded for the shared portion of the costs as progress on the related projects is completed. Water Works also receives capital contributions when real estate developers convey constructed water mains. The mains are conveyed by the contractor who constructed them and are approved by the Board of Water Works Trustees. The Water Works records revenue upon conveyance of the mains at their estimated fair value, based on the cost it would have incurred to construct them internally.

Transactions with the City of Des Moines: Water Works provides water service to the City without charge except for the Sewage Treatment Works, Des Moines International Airport and City golf courses. The value (computed at the commercial rate) of the service provided without charge was \$761,406 in 2015.

Water Works has an agreement to pay the City a Payment in Lieu of Taxes (PILOT). This amount was calculated in 2009 by applying the City millage rate for police and fire to the value of buildings and land operated and controlled by Water Works located within the City at that time. The total PILOT payment was \$755,340 in 2015.

Billings and collection agent services: Water Works serves as the billing and collection agent for fees related to sewage treatment, solid waste and storm water collection for certain political subdivisions (including the City). Separate accounting records are maintained by Water Works for these collection services. Fees collected not yet remitted by Water Works to the applicable entities totaled \$606,667 as of December 31, 2015. These fees have been reflected in Water Works' statement of net position and were remitted to the City, other political subdivisions and third party provider of the Water Works' service line protection program subsequent to year-end. Processing fees billed to those entities for billing and collection services provided by Water Works totaled approximately \$1,443,000 in 2015. The City's fees reflect only the incremental expenses incurred by Water Works to bill and collect the City's charges, rather than an equal sharing of the costs. Water Works bears the total cost of meter reading, cash processing and statement preparation and mailing.

Inventories: Inventories are stated at the lower of average cost or market. The costs of these materials and supplies are recorded as an expense at the time they are relieved from inventory for use.

Des Moines Water Works

Notes to Basic Financial Statements

Note 1. Nature of Business, Reporting Entity and Significant Accounting Policies (Continued)

Board designated funds: These assets are reserves held for any contingencies.

Restricted assets, cash and investments: Water Works is required, under the water revenue bond resolutions, to reserve certain assets to provide for payment of the bonds and interest for protection of the bondholders, and for the improvement and extension of facilities. Disbursement of these assets is restricted by the purpose of the respective funds.

Capital assets: Capital assets are recorded at cost and depreciated utilizing the straight-line method over estimated useful lives as follows:

Buildings, equipment and machinery	3-85 years
Supply system	20-85 years
Distribution system	10-85 years

Expenditures for maintenance, repairs and minor replacements are charged to operations. Expenditures for major repairs and betterments are capitalized. Water Works' capitalization threshold is \$1,000. When capital assets are retired or otherwise disposed, the cost and related accumulated depreciation are removed from the accounts and any resulting gains or losses are included in the statement of revenues, expenses and changes in net position. Included in capital assets are the interest capitalized during construction in accordance with accounting principles generally accepted in the United States of America. No capitalized interest was recorded in 2015.

Net position: Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources in the financial statements. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used for acquisition, construction, or improvement of those assets and increased by deferred outflows of resources for deferred charges on refundings and unspent bond proceeds. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. As of December 31, 2015, Water Works did not have unspent bond proceeds.

The Water Works' policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Rates: The Board has full authority to establish rates. As part of the rate-setting process, Water Works performs an annual Cost of Service Study to determine the cost of operations. This Study is based on a standard water industry model. Based upon the Study, rates are set to fund future operations. Costs related to operations and maintenance, depreciation based on estimated replacement cost of capital assets (which differs from depreciation expense recorded for financial reporting purposes), debt service and return on capital are factored into the rate design as well as demand factors from various customer classes.

Des Moines Water Works

Notes to Basic Financial Statements

Note 1. Nature of Business, Reporting Entity and Significant Accounting Policies (Continued)

Unearned revenue: During 1996 and years subsequent, Water Works entered into contractual agreements with other political subdivisions to sell treatment capacity to these entities. In exchange for purchasing these amounts of capacity, the political subdivisions will be able to purchase water at a lower wholesale water rate. Purchasers were offered the option of cash payment or participating in issues of water revenue bonds. For entities choosing to pay cash in advance, Water Works records these amounts as unearned revenue and amortizes the amounts into income over periods of 10 to 20 years. For entities participating in the bond issues, Water Works recognizes this revenue on a monthly basis as the entities are billed and as the principal and interest payments become due on the bonds. As of December 31, 2015, Water Works had \$6,906,883 of unearned revenue relating to contractual agreements and has recognized \$1,417,768 of revenue during 2015.

Compensated absences: Vacation and personal leave are accrued as a liability as it is earned. Sick leave benefits do not vest; however, upon retirement, an employee may receive pay for 90 percent of his or her accumulated sick leave up to a maximum of 810 hours. The maximum payable to employees who are eligible for retirement has been recorded as a liability as well as an estimate for employees who are probable of becoming eligible in the future.

Bond premiums and discounts: Bond premiums and discounts are deferred and amortized over the terms of the related bonds utilizing a method which approximates the effective interest method. Debt issuance costs are recognized when incurred.

Pensions: The net pension liability, deferred outflows and inflows of resources related to pensions, pension expense, information about the fiduciary net position of the Iowa Public Employees Retirement System (IPERS) and the Des Moines Water Works Pension Plan and additions to/deductions from these fiduciary net positions have been determined on the same basis as they are reported by IPERS and the Des Moines Water Works Pension Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred outflow of resources: In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense) until then. The deferred charge on refunding reported in the statement of net position qualifies for reporting in this category. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred outflows of resources for pension related amounts consist of unrecognized items not yet charged to pension expense and contributions from Water Works after the measurement date but before the end of Water Works' reporting period.

Deferred inflows of resources: Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected in the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. The statement of net position includes pension related amounts as a deferred inflow of resources. The pension related amounts consist of the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

Des Moines Water Works

Notes to Basic Financial Statements

Note 1. Nature of Business, Reporting Entity and Significant Accounting Policies (Continued)

Fiduciary fund type: The Water Works also includes a pension trust fund, fiduciary fund type. Pension trust funds are accounted for in essentially the same manner as the enterprise fund, using the same measurement focus and basis of accounting. Plan member contributions are recognized in the period in which contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The Pension Trust Fund accounts for the assets of the Des Moines Water Works Pension Plan. This plan is included in the reporting entity due to the Water Works' significant administrative involvement and due to the Board of the Plan consisting of the Water Works' Board members.

Note 2. Cash and Investments

The Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposit and Investment Risk Disclosures*, requires state and local governments to disclose certain risks. The disclosures required by GASB Statement No. 40 provide readers with information concerning the credit and interest risks associated with the Water Works' deposits and investments.

Authorized investments: Water Works is authorized to invest in obligations of the US government, its agencies and instrumentalities; certificates of deposit at federally insured Iowa depository institutions approved by the Code of Iowa, Chapter 12C; and repurchase agreements if the underlying collateral consists of obligations of the US government, its agencies and instrumentalities. The Water Works' investment policy prohibits investments in reverse repurchase agreements and futures and options contracts. In addition, investing pursuant to the following investment practices is prohibited: trading of securities for speculation of the realization of short-term trading gains; a contract providing for the compensation of an agent or fiduciary based upon the performance of the invested assets; or if a fiduciary or third party has failed to produce requested records within a reasonable time.

Interest rate risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. In an effort to limit exposure to fair value losses arising from interest rate risk, the Water Works' investment policy places maturity limitations on both operating funds and nonoperating funds. Operating funds are defined as those that are reasonably expected to be expended during the current budget year or within 15 months. Operating funds may only be invested in authorized instruments that mature within 397 days. Funds not identified as operating may be invested in investments with maturities longer than 397 days, but less than 1,726 days. All investments, however, shall have maturities that are consistent with the needs and uses of the Water Works.

Des Moines Water Works

Notes to Basic Financial Statements

Note 2. Cash and Investments (Continued)

Information about the sensitivity of the fair value of the Water Works' investments to market interest rate fluctuations is provided by the tables below for December 31, 2015:

Type	Fair Value December 31, 2015	Within 3 Months	Within 6 Months	Within 9 Months	Within 12 Months	Over 12 Months
Federal Home Loan Bank	\$ 3,334,353	\$ 1,000,010	\$ 803,848	\$ 1,530,495	\$ -	\$ -
Federal Home Loan Mortgage Corp.	2,197,847	-	646,937	-	1,550,910	-
Federal National Mortgage Assoc.	2,594,341	-	467,409	1,323,220	803,712	-
Federal Farm Credit Bank	2,028,050	999,980	-	1,028,070	-	-
	<u>\$ 10,154,591</u>	<u>\$ 1,999,990</u>	<u>\$ 1,918,194</u>	<u>\$ 3,881,785</u>	<u>\$ 2,354,622</u>	<u>\$ -</u>

The Water Works also has an investment in land purchased with the intent to sell; however, no commitment for sale existed as of December 31, 2015. The land is recorded at the lower of cost or fair value at \$624,562 as of December 31, 2015.

Credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Water Works' investment policy does not formally address credit risk.

As of December 31, 2015, the Water Works' investments were rated as follows:

Type	S&P Rating	Moody's Rating
Federal Home Loan Bank	AA+	Aaa
Federal Home Loan Mortgage Corp.	AA+	Aaa
Federal National Mortgage Assoc.	AA+	Aaa
Federal Farm Credit Bank	AA+	N/A

Concentration of credit risk: The policy defines diversification requirements for the Water Works' investments. Invested assets shall be diversified to eliminate the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer or a specific class of security. Portfolio maturities shall be staggered in a way that avoids undue concentration of assets in a specific maturity sector. Liquidity practices shall be followed to ensure that funds required for the next disbursement date and next payroll date are covered through maturity investments, marketable US Treasury bills or cash on hand. Risks of market price volatility shall be controlled through maturity diversification so that aggregate price losses on investments with maturities approaching one year shall not be greater than coupon interest and investment income received from the balance of the portfolio.

Des Moines Water Works

Notes to Basic Financial Statements

Note 2. Cash and Investments (Continued)

More than 5 percent of the Water Works' investments are in the following investments as of December 31, 2015:

Type	
Federal Home Loan Bank	32.84%
Federal Home Loan Mortgage Corp.	21.64
Federal National Mortgage Assoc.	25.55
Federal Farm Credit Bank	19.97

The Water Works' investments during the year did not vary substantially from those at year-end in amounts or level or risk.

Custodial credit risk: The custodial credit risk for deposits and investments is the risk that, in the event of the failure of a depository financial institution or counterparty (for example, broker-dealer) to a transaction, a government will not be able to recover deposits or will not be able to recover collateral securities or the value of investments that are in the possession of an outside party. Deposits in financial institutions as of December 31, 2015 and throughout the year are covered by federal depository insurance or the State Sinking Fund in accordance with Chapter 12C, Code of Iowa. This Chapter provides additional assessments against the depositories to ensure there is no loss of public funds. Water Works' bank balances and book balances of deposits were \$5,674,958 and \$5,233,040, respectively, as of December 31, 2015. Water Works' investments were not exposed to custodial credit risk as of December 31, 2015.

Pension Plan Deposits and Investments

Deposits: As of December 31, 2015, the Plan held no deposits.

Investments: The Plan's investments in pooled separate accounts are stated at fair value based on quoted market prices of the investments held in each account as determined by Principal Life Insurance Company (Principal). Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as, held during the year.

Des Moines Water Works

Notes to Basic Financial Statements

Note 2. Cash and Investments (Continued)

Asset allocation strategy: The Des Moines Water Works Pension Plan's named fiduciary asset allocation strategy shall identify target allocations to eligible asset classes and, where appropriate, suitable ranges within which each asset class can fluctuate as a percent of the total fund. Each asset class is to remain suitably invested at all times in either cash (or cash equivalents) or permitted securities within each class. The assets classes may be rebalanced from time to time to take advantage of tactical misvaluations across major asset classes or investment styles, or to align the current asset mix with strategic targets. The target allocations and long-term expected arithmetic and geometric rates of return for each major asset class are as follows:

Asset Class	Target Allocation	Expected Arithmetic Return	Expected Geometric Return
U.S. Equity - Large Cap	33%	8.80%	7.45%
U.S. Equity - Mid Cap	3	9.10	7.45
U.S. Equity - Small Cap	3	9.55	7.45
Non - U.S. Equity	9	9.20	7.45
REITs	1	8.35	6.55
Real Estate (direct property)	6	6.30	5.95
TIPS	1	4.10	3.90
Core Bond	39	4.25	4.15
High Yield	5	6.30	5.90

Authorized investments: The Des Moines Water Works Pension Plan's investment policy permits the named fiduciary to consider all asset classes allowed by Employee Retirement Income Security Act of 1974 (ERISA) as acceptable investment options and to select one or more customized investment portfolios and retain an investment manager to manage the assets of each such portfolio. The following assets classes are permitted for Plan investment options: Stable Value, Domestic Fixed Income, International or Foreign Fixed Income, Real Estate, Domestic Stock, International or Foreign Stock and Balanced/Asset allocation.

GASB Statement No. 40 requires plan investments to disclose an indication of the level of credit risk, concentration of credit risk and interest rate risk assumed by the Plan. These risk disclosures only pertain to fixed income investments. As of December 31, 2015, the Plan had investments listed in the table below. Amounts are shown in dollars. Effective duration is shown in years. Investments held by the Plan were not subject to custodial credit risk or foreign currency risk.

	Fair Value	Effective Duration
Fixed income investments:		
Principal Core Plus Bond I Account	\$ 14,038,547	5.46
Principal Bond Market Index Account	4,765,078	5.70
Principal High Yield I Account	2,285,313	4.24
Total fixed income investments	21,088,938	
Other investments, non-fixed income investments	27,035,322	
Total investments	<u>\$ 48,124,260</u>	

Des Moines Water Works

Notes to Basic Financial Statements

Note 2. Cash and Investments (Continued)

Interest rate risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. In accordance with the Water Works' investment policy the Water Works minimizes the market value risk of investments in the portfolio by structuring its investment portfolio so that securities identified for operations mature to meet cash requirements within the next 15 months.

Credit risk and concentration of credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligations to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The pooled separate accounts held by the Plan are commingled pools, rather than individual securities. As a result, these investments are not rated.

Note 3. Capital Assets

Capital assets activity for the year ended December 31, 2015 is as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets not being depreciated:				
Land	\$ 6,885,639	\$ 446,788	\$ -	\$ 7,332,427
Construction-in-progress	6,227,747	19,557,862	14,833,333	10,952,276
Total capital assets not being depreciated	13,113,386	20,004,650	14,833,333	18,284,703
Capital assets being depreciated:				
Buildings, equipment and machinery	172,823,889	5,025,828	214,985	177,634,732
Supply system	53,182,258	1,647,593	-	54,829,851
Distribution system	198,834,580	10,864,338	-	209,698,918
Total capital assets being depreciated	424,840,727	17,537,759	214,985	442,163,501
Less accumulated depreciation for:				
Buildings, equipment and machinery	82,583,155	4,833,894	214,985	87,202,064
Supply system	17,259,085	720,918	-	17,980,003
Distribution system	55,232,211	3,290,230	-	58,522,441
Total accumulated depreciation	155,074,451	8,845,042	214,985	163,704,508
Total capital assets being depreciated, net	269,766,276	8,692,717	-	278,458,993
Net capital assets	\$ 282,879,662	\$ 28,697,367	\$ 14,833,333	\$ 296,743,696

Note 4. Noncurrent Liabilities

As of December 31, 2015, Water Works' debt consists of Water Revenue Refunding Bonds, Series 2011, Series 2012A and Series 2012B; and Water Revenue Capital Loan Note, Series 2003 (through the Drinking Water State Revolving Fund (SRF)). Interest on these bonds and note is payable semiannually on June 1 and December 1, with principal payable on December 1. Series 2011 matures on December 1, 2017, Series 2012A matures on December 1, 2023, and Series 2012B matures on December 1, 2025. The Series 2003 note matures on December 1, 2022. The bonds and note are redeemable at the option of Water Works prior to their maturity in whole or, from time to time, in part, in any order of maturity and within a maturity by lot, at a price of par plus accrued interest to call date.

Des Moines Water Works

Notes to Basic Financial Statements

Note 4. Noncurrent Liabilities (Continued)

Changes in long-term obligations for the year ended December 31, 2015 is as follows:

	Beginning Balance (as restated)	Additions	Reductions	Ending Balance	Amounts Due Within One Year
Water Revenue Bonds:					
Series 2011	\$ 4,205,000	\$ -	\$ 1,590,000	\$ 2,615,000	\$ 1,655,000
Series 2012 A & B	37,370,000	-	3,515,000	33,855,000	3,620,000
Water Revenue Capital, Series 2003	1,132,000	-	127,000	1,005,000	131,000

2021-2022	1.75	309,000	8,155	317,155
		<u>\$ 1,005,000</u>	<u>\$ 72,468</u>	<u>\$ 1,077,468</u>

The water revenue bond and water revenue capital loan note resolutions (Resolutions) provide that future water customer revenues, net of specified operating expenses of Water Works, are pledged for the purpose of paying Series 2011 and Series 2012 bonds. Proceeds from the bonds were used to provide additional infrastructure needs. The bonds are payable solely from customers net revenues. The Resolutions further require that sufficient monies be set aside to meet current expenses of Water Works. All remaining monies are to be segregated and restricted in separate special reserves. These special reserves are reflected as restricted assets on the statement of net position. The Resolutions also require the issuer maintain insurance coverage of a kind and in an amount which usually would be carried by private companies engaged in a similar kind of business. Water Works maintains fire and extended coverage insurance in the amount of \$374,058,693 per occurrence on building and contents; in addition, liability insurance is maintained.

Des Moines Water Works

Note 4. Noncurrent Liabilities (Continued)

A summary of the outstanding debt, principal and interest requirements are as follows:

	Issue Date	Year Maturing	Principal and Interest Remaining	Principal and Interest Paid in 2015	Annual Payments as a Percentage of Net Revenues
Water Revenue Bonds:					
Series 2011	3/1/2011	2017	\$ 2,722,250	\$ 1,716,150	12.98%
Series 2012 A	10/30/2012	2023	3,633,000	505,725	3.83
Series 2012 B	10/30/2012	2025	35,524,900	4,092,700	30.96
Water Revenue Capital,					
Series 2003	4/16/2003	2022	1,077,468	146,810	1.11
			<u>\$ 42,957,618</u>	<u>\$ 6,461,385</u>	<u>48.88%</u>

Total customer net revenues were \$13,219,208. Annual principal and interest payments on the bonds are approximately 49 percent of net revenues.

The Water Works has financed the acquisition of certain equipment by means of capital leases; therefore the leases were recorded at the inception date as a liability at the present value of the future minimum lease payments. The future minimum lease payments and the present value of the remaining minimum lease payments as of December 31, 2015 are as follows:

Maturing During Year Ending December 31:	Interest Rate	Total Annual Payment
2016	3.30%	\$ 21,023
2017	3.30	21,023
2018	3.30	21,023
2019	3.30	21,023
2020	3.30	21,022
Total minimum lease payments		105,114
Less amount representing interest		17,209
Present value of future minimum lease payments		<u>\$ 87,905</u>

Equipment as of December 31, 2015 includes the following assets under capital lease:

Equipment	\$ 158,265
Less accumulated depreciation	(31,653)
Total	<u>\$ 126,612</u>

Note 5. Retirement Plans

As a result of the adoption of GASB Statement Nos. 68 and 71, the beginning net position of the business-type activities was restated. The effect on beginning net position is as follows:

	<u>Business-Type Activities</u>
Net position December 31, 2014, as previously reported	\$ 249,120,345
Restatement due to Water Works Pension Plan	
Net pension liability	(5,564,263)
Changes in attribution method and assumptions	3,904,400
Removal of net pension obligation	83,337
Restatement due to IPERS	
Net pension liability	(5,193,679)
Pension related deferred inflows	(1,980,720)
Pension related deferred outflows	5,571,266
Net position December 31, 2014, as restated	<u>\$ 245,940,686</u>

Des Moines Water Works Pension Plan:

Plan description: Water Works has a frozen noncontributory defined benefit single employer pension plan, established by the Board, called the Des Moines Water Works Pension Plan (the Plan). Benefits vest after five years of continuous service and normal retirement is allowed at or after age 65. Early retirement is allowed without a reduction in benefits beginning at age 55 if the employee's combined years of service and age are 85 or greater and is allowed with reduced benefits for vested employees with less than 30 years of service beginning at age 55. The Plan was restated effective December 31, 2013. After that date, accrued plan benefits were frozen and will not increase due to any changes in average compensation or continuous service after such date. The pension benefit formula is based upon a percent of average compensation and the number of years of service with Water Works. A participant's monthly accrued benefit is equal to 1.5 percent of their average monthly compensation times their years of continuous service with Water Works. Average monthly compensation is determined by taking the average monthly pay for the 60 consecutive full calendar months out of the 120 calendar months prior to December 31, 2013 which gives the highest average. The Plan also provides death and disability benefits to vested employees. The Plan Administrator is the Board of Trustees of Des Moines Water Works. The Plan issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to or calling the Water Works.

Basis of accounting: The Plan records are maintained on the accrual basis of accounting. Employer contributions to the Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of the Plan. The Plan's investments in pooled separate accounts are stated at fair value based on quoted market prices of the investments held in each account as determined by Principal Life Insurance Company (Principal). Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as, held during the year. Benefits are recognized when due and payable in accordance with the terms of the Plan.

Des Moines Water Works

Notes to Basic Financial Statements

Note 5. Retirement Plans (Continued)

Membership data at December 31, 2015 included:

Active plan members	142
Inactive plan members entitled to but not yet receiving benefits	59
Disabled plan members entitled to but not yet receiving benefits	5
Retired plan members or beneficiaries currently receiving benefits	157
	<u>363</u>

Contributions: The Plan receives an annual actuarial valuation for the purpose of determining recommended contribution rates. The actuarially determined contribution rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with additional amounts to finance any unfunded accrued liability and plan administrative expenses. The Plan's funding policy provides for periodic employer contributions at rates that are sufficient to accumulate assets to pay benefits to Plan participants. Amounts contributed to the Plan from Water Works are determined by the Board of Trustees of Des Moines Water Works. However, as the Plan is exempt from ERISA funding requirements, any amount may be contributed to the Plan.

Rate of return: For the year ended December 31, 2015, the annual money weighted rate of return on Plan investments, net of investment expense was (1.27) percent. The money weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net pension liability: The total pension liability was determined using an actuarial valuation date of December 31, 2015 using general accepted actuarial principals and methods. In 2015, Water Works adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. Water Works is utilizing December 31, 2015 as its measurement date for reporting its net pension liability and related deferred inflows/outflows in their financial statements.

A schedule of the Plan's changes in its net pension liability for the year ended December 31, 2015 is as follows:

Total pension liability	
Service cost	\$ 580,106
Interest	3,342,170
Benefit payments	(2,826,683)
Difference between expected and actual experience	320,599
Net change in total pension liability	<u>1,416,192</u>
Total pension liability - beginning of year	<u>52,334,304</u>
Total pension liability - end of year	<u><u>\$ 53,750,496</u></u>
Plan fiduciary net position	
Contributions - employer	\$ 911,175
Investment income, net of investment expenses of \$22,091	(629,997)
Benefit payments	(2,826,683)
Administrative expenses	(4,676)
Net change in plan fiduciary net position	<u>(2,550,181)</u>
Total plan fiduciary net position, beginning of year	<u>50,674,441</u>
Total plan fiduciary net position, end of year	<u><u>\$ 48,124,260</u></u>
Net pension liability	<u><u>\$ 5,626,236</u></u>
Plan fiduciary net position as a percentage of the total pension liability	89.53%

Des Moines Water Works

Notes to Basic Financial Statements

Note 5. Retirement Plans (Continued)

Actuarial assumptions for the year ended December 31, 2015 are as shown in the table below:

December 31, 2015																	
Actuarial valuation:																	
Frequency	Annual																
Cost method	Entry age normal																
Amortization	The amortization method used is Level Dollar Over a Closed Period. The weighted average remaining period is 15 years.																
Assumptions:																	
Long-term rate of return	6.5% per year																
Salary increases	N/A - Attribution is made on an individual basis, beginning with the first period in which the employee's service accrues pension benefit through all assumed exit ages through retirement. The projected inflation rate of 2.5% has been used in place of the projected rate of change in salary.																
Retirement age	Retirement Age Based Table as follows:																
	<table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th style="text-align: center;">Age</th> <th style="text-align: center;">Rate</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">55</td> <td style="text-align: center;">25%</td> </tr> <tr> <td style="text-align: center;">56</td> <td style="text-align: center;">15</td> </tr> <tr> <td style="text-align: center;">57 - 61</td> <td style="text-align: center;">5</td> </tr> <tr> <td style="text-align: center;">62</td> <td style="text-align: center;">20</td> </tr> <tr> <td style="text-align: center;">63</td> <td style="text-align: center;">5</td> </tr> <tr> <td style="text-align: center;">64</td> <td style="text-align: center;">10</td> </tr> <tr> <td style="text-align: center;">65 and older</td> <td style="text-align: center;">100</td> </tr> </tbody> </table>	Age	Rate	55	25%	56	15	57 - 61	5	62	20	63	5	64	10	65 and older	100
Age	Rate																
55	25%																
56	15																
57 - 61	5																
62	20																
63	5																
64	10																
65 and older	100																
Mortality	Adjusted RP-2014 Mortality with Scale MP-2015 - Generational MI scale, annuitant, male and female.																
Disability	1987 Commissioner's Group Disability Table, six month elimination period, male and female.																
Rate of withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.45.																

Discount rate: The discount rate used to measure the total pension liability was 6.50 percent. The plan's fiduciary net position and benefit payments were projected to determine if the plan's fiduciary net position was greater than or equal to the expected benefit payments for each period from 2015 to 2105. Benefit payments after 2105 are projected to be none. Therefore, the long-term expected rate of return on the pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Des Moines Water Works

Notes to Basic Financial Statements

Note 5. Retirement Plans (Continued)

Sensitivity of the Plan's net pension liability to changes in the discount rate: The following presents the Plan's net pension liability calculated using the single discount rate of 6.50 percent, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50 percent) or 1-percentage-point higher (7.50 percent) than the current rate.

1% Decrease (5.50%)	Current discount rate (6.50%)	1% Increase (7.50%)
\$11,644,484	\$5,626,236	\$505,381

Pension expense and deferred outflows of resources related to pensions: For the year ended December 31, 2015, Water Works recognized pension expense for the Water Works Pension Plan of \$1,580,041. At December 31, 2015, Water Works reported deferred outflows of resources related the Water Works Pension Plan from the following sources:

	Deferred Outflows of Resources
Differences between expected and actual plan experience	\$ 220,412
Net differences between expected and actual investment income	3,077,095
Total deferred outflows of resources	<u>\$ 3,297,507</u>

Amounts reported as Deferred Outflows of Resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	Deferred Outflows of Resources
2016	\$ 869,461
2017	869,461
2018	789,312
2019	769,273
	<u>\$ 3,297,507</u>

Deferred outflows of resources for differences between expected and actual plan experience will be recognized over a closed period equal to the average of the expected remaining service lives of all employees (active employees, vested, terminated, and retirees) as of the beginning of the measurement period. Deferred outflows of resources for differences between projected and actual earnings on pension plan investments will be recognized over a closed five-year period.

Des Moines Water Works

Notes to Basic Financial Statements

Note 5. Retirement Plans (Continued)

Iowa Public Employees' Retirement System:

Plan description: IPERS membership is mandatory for employees of the Water Works. Employees of the Water Works are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.og.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules there under. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension benefits: A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. (These qualifications must be met on the member's first month of entitlement to benefits). Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member's highest five-year average salary. (For members with service before June 30, 2012, the highest three-year average salary as of that date will be used if it is greater than the highest five-year average salary.)

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is .25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is .50 percent for each month that the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and death benefits: A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Des Moines Water Works

Notes to Basic Financial Statements

Note 5. Retirement Plans (Continued)

Contributions: Effective July 1, 2012, as a result of a 2010 law change, the contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to 1 percent point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2015, pursuant to the required rate, Regular members contributed 5.95 percent of pay and the Water Works contributed 8.93 percent for a total rate of 14.88 percent.

The Water Works' contributions to IPERS for the year ended December 31, 2015 were \$1,404,619.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions: At December 31, 2015, the Water Works reported a liability of \$10,687,114 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Water Works' proportion of the net pension liability was based on the Water Works' share of contributions to the pension plan relative to the contributions of all participating governments. At June 30, 2015, the Water Works' proportion was 0.214970 percent, which was an increase of 0.086639 percent from its proportion measured as of June 30, 2014.

For the year ended December 31, 2015, the Water Works recognized pension expense of \$3,582,851. At December 31, 2015, the Water Works reported deferred outflows of resources and deferred inflows of resources related to the IPERS pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual plan experience	\$ 161,469	\$ -
Changes of assumptions	294,243	-
Net difference between projected and actual investment earnings on pension plan investments	1,599,004	2,488,452
Changes in proportion and differences between Water Works contributions and proportionate share of contributions	7,332,170	-
Water Works contributions subsequent to the measurement date	676,181	-
	<u>\$ 10,063,067</u>	<u>\$ 2,488,452</u>

Des Moines Water Works

Notes to Basic Financial Statements

Note 5. Retirement Plans (Continued)

\$676,181 reported as deferred outflows of resources related to pensions resulting from Water Works' contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
2017	\$ 2,503,489	\$ (829,484)
2018	2,503,489	(829,484)
2019	2,503,489	(829,484)
2020	1,640,926	-
2021	235,493	-
	<u>\$ 9,386,886</u>	<u>\$ (2,488,452)</u>

Deferred outflows of resources for differences between expected and actual plan experience, changes in assumptions and changes in proportion will be recognized over a closed period equal to the average of the expected remaining service lives of all employees (active employees, vested, terminated and retirees) as of the beginning of the measurement period. Deferred outflows and inflows of resources for differences between projected and actual earnings on pension plan investments will be recognized over a closed five-year period.

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of June 30, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00 percent
Salary increases	4.00 to 17.00 percent, including inflation. Rates vary by membership group
Long-term rate of return	7.50 percent compounded annually, net of investment expense and including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the four-year period ending June 30, 2013.

Des Moines Water Works

Notes to Basic Financial Statements

Note 5. Retirement Plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Core-plus fixed income	28%	2.04%
Domestic equity	24	6.29
International equity	16	6.75
Private equity/debt	11	11.32
Real estate	8	3.48
Credit opportunities	5	3.63
U.S. TIPS	5	1.91
Other real assets	2	6.24
Cash	1	(0.71)
	<u>100%</u>	

Discount rate: The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from Water Works will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Water Works' proportionate share of the net pension liability to changes in the discount rate: The following presents the Water Works' proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the Water Works' proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Water Works proportionate share of the net pension liability	\$ 18,711,215	\$ 10,687,114	\$ 3,914,198

Des Moines Water Works

Note 5. Retirement Plans (Continued)

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report; which can be located at www.ipers.org.

Payables to the pension plan: At December 31, 2015, the Water Works reported payables to the defined benefit pension plan of \$156,274 for legally required employer contributions and \$104,124 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Note 6. Other Postemployment Benefits

Plan description: The Water Works sponsors a single-employer health care plan that provides certain postretirement health care benefits, in accordance with the policy established by the Board, to all employees who retire from Water Works after attaining age 55 with 5 years of service. As of December 31, 2015, 116 retirees receive postretirement health care benefits. Water Works provides a Medicare supplement or equivalent amount to all employees who retire after attaining age 55, if the sum of their age and years of service are at least 85 or for those who retire after attaining age 65 regardless of length of service. Employees who retire prior to attaining age 65 with the sum of their age and years of service less than 85 receive a discounted benefit as provided by the plan document. The plan does not issue a stand-alone financial report.

Funding policy: The health insurance plan contributions on behalf of employees are negotiated by management and the union and governed by the Water Works' union contracts.

The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2015, the Water Works contributed \$197,917. Retirees receiving benefits contributed \$90,478. The Water Works offered a choice of three health insurance plans in 2015. The required contribution for active members and retirees under the age of 65 varied by the plan selected. Retirees over the age of 65 also contributed varying amounts based on the plan selected.

Annual OPEB cost and net OPEB obligation: The Water Works' annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance to the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the components of the Water Works' annual OPEB cost for the year ending December 31, 2015, the amount actuarially contributed to the plan and changes in the Water Works' annual OPEB obligation:

Annual required contribution	\$ 913,060
Interest on net OPEB obligation	227,386
Adjustment to annual required contribution	(407,447)
Annual OPEB cost (expense)	<u>732,999</u>
Contributions and payments made	<u>197,917</u>
Increase in net OPEB obligation	535,082
Net OPEB obligation - beginning of year	<u>5,823,726</u>
Net OPEB obligation - end of year	<u>\$ 6,358,808</u>

Des Moines Water Works

Notes to Basic Financial Statements

Note 6. Other Postemployment Benefits (Continued)

The Water Works' annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligations for 2015, 2014 and 2013 follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
December 31, 2013	\$ 1,016,213	17%	\$ 4,999,673
December 31, 2014	999,391	18	5,823,726
December 31, 2015	732,999	27	6,358,808

Funded status and funding progress as of December 31, 2015: Postemployment Benefit Obligations under GASB Statement No. 45 calculated as of December 31, 2014, the most recent valuation date, is as follows:

	Total	Members
Actuarial Accrued Liability		
Current retirees, beneficiaries and dependents	\$ (4,040,083)	76
Current active members	(9,879,267)	201
Total Actuarial Accrued Liability (AAL)	(13,919,350)	
OPEB Plan Assets	-	
Unfunded Actuarial Accrued Liability (UAAL)	(13,919,350)	

The covered payroll (annual payroll of active employees covered by the plan) for December 31, 2015 was \$15,729,212. The ratio of the UAAL to the covered payroll for December 31, 2015 was 88.5 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial methods and assumptions: Projections and benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and included in the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2014 actuarial valuation, the most recent actuarial valuation, the unit credit method was used. The actuarial assumptions included a 4.0 percent investment rate of return (net of administrative expenses) and an annual health care cost trend rate of 7.0 percent initially, grading down to 4.5 percent in 7 years. The Water Works' unfunded actuarial accrued liability is being amortized over 30 years, with 22 years remaining.

Des Moines Water Works

Notes to Basic Financial Statements

Note 7. Risk Management

Water Works is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees, natural disasters and malpractice.

Water Works purchases commercial insurance for property and casualty, employee health, life and long-term disability insurance. During the last three years, settled claims have not exceeded insurance coverage.

Beginning in 2014, Water Works is self-insured for workers' compensation claims and utilizes a third party administrator to process claims and payments. A stop loss policy limits claims losses to \$1,000,000 per coverage year in the aggregate.

The claims liability of \$516,699 as of December 31, 2015 is based on the requirements of the Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information indicates that it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an estimated amount for claims that have been incurred but not reported (IBNR) which represent estimates of the eventual loss on claims arising prior to year-end. Changes in the balance of claims liability during the year ended December 31, 2015 is as follows:

Unpaid claims, beginning of year	\$ -
Current year claims and changes in estimates	809,515
Claim payments	<u>(292,816)</u>
Unpaid claims, end of year	<u><u>\$ 516,699</u></u>

Note 8. Commitments

Approximately \$2,048,000 related to 2015 contracts has been formally committed as of December 31, 2015. In addition, the Board has approved approximately \$22,200,000 of expenditures for capital acquisitions and improvements, all of which are expected to be expended in 2016.

In 1983, Water Works determined additional water resources would be required for future customer needs. As a result, the Board has contracted with the United States of America – Army Corps of Engineers, through the state of Iowa, for water supply storage in the Saylorville Reservoir Project continuing through the life of the project. Under the contract, Water Works is required to pay a portion of future major renovation costs of the project. Water Works also pays a portion of the annual operation and maintenance costs of the project. Water Works portion of the operation and maintenance costs was approximately \$116,000 in 2015.

On January 1, 2014, the Water Works and the Greater Des Moines Botanical Gardens (GDMBG) entered into an agreement for Water Works to provide for \$200,000 of in-kind services to be performed for the GDMBG every year for ten years. For the year ended December 31, 2015, Water Works provided in-kind services valued at approximately \$188,000. Any over/under spending will be offset of expenses in a future year.

Des Moines Water Works

Notes to Basic Financial Statements

Note 9. New Governmental Accounting Standards Board (GASB) Statements

As of December 31, 2015, the GASB also had issued several Statements not yet implemented by the Water Works.

GASB Statement No. 72, *Fair Value Measurement and Application*, issued February 2015, will be effective for the Water Works for its year ending December 31, 2016. This Statement defines fair value and describes how fair value should be measured, what assets and liabilities should be measured at fair value, and what information about fair value should be disclosed in the notes to the financial statements. This Statement defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments, which generally are measured at fair value, are defined as a security or other asset that governments hold primarily for the purpose of income or profit and the present service capacity of which are based solely on their ability to generate cash or to be sold to generate cash. The related disclosures have been expanded to categorize fair values according to their relative reliability and to describe positions held in many alternative investments.

The Water Works' management intends to adopt this Statement by the required date and will modify and expand its disclosures accordingly.

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, issued in June 2015, will be effective for the Water Works beginning with its fiscal year ending December 31, 2018. The Statement replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* and requires governments to report a liability on the face of the financial statements for the OPEB they provide and outlines the reporting requirements by governments for defined benefit OPEB plans administered through a trust, cost-sharing OPEB plans administered through a trust and OPEB not provided through a trust. The Statement also requires governments to present more extensive note disclosures and required supplementary information about their OPEB liabilities. Some governments are legally responsible to make contributions directly to an OPEB plan or make benefit payments directly as OPEB comes due for employees of other governments. In certain circumstances, called special funding situations, the Statement requires these governments to recognize in their financial statements a share of the other government's net OPEB liability.

As a result of implementing this Statement, management will record a net OPEB liability on the financial statements for the plan. The actuarial accrued liability as of December 31, 2014, the most recent valuation date, was \$13,919,350.

GASB Statement No. 82, *Pension Issues – An Amendment of GASB Statement Nos. 67, 68 and 73*, issued March 2016, will be effective for the Water Works beginning with its fiscal year ending December 31, 2018. This Statement clarifies that a deviation, as the term is used in Actuarial Standards of Practice issued by the Actuarial Standards Board, from the guidance in an Actuarial Standard of Practice is not considered to be in conformity with the requirements of Statement Nos. 67, 68 or 73 for the selection of assumptions used in determining the total pension liability and related measures. This Statement clarifies that payments that are made by an employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements should be classified as plan member contributions for purposes of Statement 67 and as employee contributions for purposes of Statement 68. It also requires that an employer's expense and expenditures for those amounts be recognized in the period for which the contribution is assessed and classified in the same manner as the employer classifies similar compensation other than pensions (for example, as salaries and wages or as fringe benefits).

The Water Works' management has not yet determined the effect this Statement will have on the Water Works' financial statements.

Board of Water Works Trustees
Des Moines Water Works
Des Moines, Iowa

We are pleased to present this report related to our audit of the basic financial statements of Des Moines Water Works (the Water Works) for the year ended December 31, 2015. This report summarizes certain matters required by professional standards to be communicated to you in your oversight responsibility for Des Moines Water Works' financial reporting process.

This report is intended solely for the information and use of the Board of Water Works Trustees and management and is not intended to be and should not be used by anyone other than these specified parties. It will be our pleasure to respond to any questions you have about this report. We appreciate the opportunity to continue to be of service to Des Moines Water Works.

Contents

Required communications	1-3
Summary of significant accounting estimates	4-6
Exhibit A—Significant written communications between management and our firm	
Representation letter of the Des Moines Water Works	
Representation letter of the Board of Water Works Trustees, Billing and Collection Agent for the Sewer Service, Solid Waste Collection and Storm Water Management Charges for the City of Des Moines, Iowa	
Exhibit B—Report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with <i>Government Auditing Standards</i>	

Required Communications

Generally accepted auditing standards (AU-C 260, *The Auditor's Communication With Those Charged With Governance*) require the auditor to promote effective two-way communication between the auditor and those charged with governance. Consistent with this requirement, the following summarizes our responsibilities regarding the financial statement audit as well as observations arising from our audit that are significant and relevant to your responsibility to oversee the financial reporting process.

Area	Comments
Our Responsibilities With Regard to the Financial Statement Audit	Our responsibilities under auditing standards generally accepted in the United States of America and <i>Government Auditing Standards</i> issued by the Comptroller General of the United States have been described to you in our arrangement letter dated March 1, 2016. Our audit of the financial statements does not relieve management or those charged with governance of their responsibilities which are also described in that letter.
Overview of the Planned Scope and Timing of the Financial Statement Audit	We have issued a separate communication regarding the planned scope and timing of our audit and have discussed with you our identification of and planned audit response to significant risks of material misstatement.
Accounting Policies and Practices	<p data-bbox="594 890 1442 1045">Preferability of Accounting Policies and Practices Under generally accepted accounting principles, in certain circumstances, management may select among alternative accounting practices. In our view, in such circumstances, management has selected the preferable accounting practice.</p> <p data-bbox="594 1077 1442 1232">Adoption of, or Change in, Accounting Policies Management has the ultimate responsibility for the appropriateness of the accounting policies used by the Water Works. In the current year the Water Works adopted the following Governmental Accounting Standards Board (GASB) Statements:</p> <ul data-bbox="594 1243 1442 1640" style="list-style-type: none"><li data-bbox="594 1243 1442 1640">• GASB Statement No. 68, <i>Accounting and Financial Reporting for Pensions</i>. This Statement replaces the requirements of GASB Statement No. 27, <i>Accounting for Pensions by State and Local Governmental Employers</i>, and GASB Statement No. 50, <i>Pension Disclosures</i>, as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that meet certain criteria. This Statement requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. This Statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information.

Area	Comments
	<ul style="list-style-type: none"> <li data-bbox="605 237 1432 632">• GASB Statement No. 71, <i>Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68</i>. This Statement eliminates a potential source of understatement of restated beginning net position and expense in a government’s first year of implementing GASB Statement No. 68, <i>Accounting and Financial Reporting for Pensions</i>. To correct this potential understatement, Statement 71 requires a state or local government, when transitioning to the new pension standards, to recognize a beginning deferred outflow of resources for its pension contributions made during the time between the measurement date of the beginning net pension liability and the beginning of the initial fiscal year of implementation. <p data-bbox="605 648 1432 831">As a result of implementing these new Statements, the Water Works restated beginning net position by \$3,179,659. This was to record the net pension liability and deferred outflows of resources for contributions made subsequent to the measurement date, for participation in both the Iowa Public Employees Retirement System (IPERS) and the Des Moines Water Works Pension Plan.</p> <p data-bbox="605 863 1062 890">Significant or Unusual Transactions</p> <p data-bbox="605 894 1432 982">We did not identify any other significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.</p> <p data-bbox="605 1016 1281 1043">Management’s Judgments and Accounting Estimates</p> <p data-bbox="605 1047 1432 1167">Summary information about the process used by management in formulating particularly sensitive accounting estimates and about our conclusions regarding the reasonableness of those estimates is in the attached Summary of Significant Accounting Estimates.</p>
Audit Adjustments	There were no audit adjustments made to the original trial balance presented to us to begin our audit.
Uncorrected Misstatements	We are not aware of any uncorrected misstatements other than misstatements that are clearly trivial.
Disagreements With Management	We encountered no disagreements with management over the application of significant accounting principles, the basis for management’s judgments on any significant matters, the scope of the audit, or significant disclosures to be included in the financial statements.
Consultations With Other Accountants	We are not aware of any consultations management had with other accountants about accounting or auditing matters.
Significant Issues Discussed With Management	No significant issues arising from the audit were discussed with or the subject of correspondence with management.
Significant Difficulties Encountered in Performing the Audit	We did not encounter any significant difficulties in dealing with management during the audit.

Area	Comments
Accounting Pronouncements	Please refer to Note 9 of the financial statements for new accounting pronouncements that have been recently issued that will impact the Water Works' financial statements in future periods.
Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Government Auditing Standards</i>	We have separately issued a report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with <i>Government Auditing Standards</i> . This communication is attached as Exhibit B.
Significant Written Communications Between Management and Our Firm	<p>Copies of significant written communications between our firm and the management of the Des Moines Water Works, including the representation letter provided to us by management, are attached as Exhibit A.</p> <p>We have also separately issued reports on statements of cash receipts and disbursements of Board of Water Works Trustees, Billing and Collecting Agent for the Sewer Service, Solid Waste Collection and Storm Water Management charges for the City of Des Moines, Iowa.</p>

Summary of Significant Accounting Estimates

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. You may wish to monitor throughout the year the process used to determine and record these accounting estimates. The following describes the significant accounting estimates reflected in the Des Moines Water Works' December 31, 2015 basic financial statements.

Estimate	Accounting Policy	Management's Estimation Process	Basis for Our Conclusions on Reasonableness of Estimate
Other Postemployment Benefit Plan (OPEB) Assumptions	The Water Works has an actuarial valuation performed to determine the annual required contribution. Any difference between the annual required contribution and actual contribution made is recorded as an asset or obligation in the financial statements of the Water Works.	The Water Works utilizes the services of an actuary to determine the Water Works Annual Required Contribution. Management and the actuary determine the appropriateness of the actuarial assumptions to be utilized. The actuary then performs the calculation, which is reviewed and approved by management of the Water Works.	We obtained actuarial calculation reports and concluded the estimates and the process used by management are reasonable.
Net Pension Liability	The Water Works net pension liability and related deferred outflows of resources and pension expenses from participating as a member of the Iowa Public Employees Retirement System (IPERS), and the Water Works' single employer defined benefit pension plan are recorded in the financial statements in accordance with GASB Statement Nos. 68 and 71.	The Plans use an actuary to calculate the net pension liability and expense based on assumptions established by the Plan's Board and management from past history and investment returns. The Water Works management reviews the actuarial results and considers the appropriateness of the assumptions used by the Plans.	We analyzed management's methodology, tested the underlying data, obtained the calculation and actuarial report and had an internal specialist review the significant assumptions and conclusions. We concluded the process used by management and the estimates are reasonable.

Estimate	Accounting Policy	Management's Estimation Process	Basis for Our Conclusions on Reasonableness of Estimate
Depreciable Useful Life and Salvage Value of Capital Assets	The depreciable useful life of capital assets is set at the estimated useful life of the related asset. Salvage value is based upon an estimate of what the value of the property will be when the Water Works is through using the related asset.	The determination is made at the time the asset is placed into service and involves various judgments and assumptions, including resale value of used equipment, estimated useful life and prior experience.	We tested the propriety of information underlying management's estimates. Based on our procedures, we concluded that management's estimates are reasonable.
Fair Value of Investments	The Water Works records the estimated fair value of its investments.	Investment securities are based on quoted market prices.	We tested the propriety of information underlying management's estimates, including the use of a third-party independent pricing source. Based on our procedures, we conclude that management's estimate is reasonable.
Unbilled Revenue	The Water Works records a receivable for the estimated amount of revenue related to unbilled water at the end of the year.	The estimated receivable is based on past history and cycles billed after the end of the year.	We tested the information used to calculate the estimated receivable and concluded that management's estimate is reasonable.
Accrued Sick Leave	Ninety percent of any unused sick leave is paid at the time of retirement for eligible employees. The estimated amount to be paid to employees at the time of retirement is recorded as a compensated absence liability.	Des Moines Water Works uses past experience to determine the estimated amount of accrued sick leave.	We analyzed management's methodology and concluded the estimates are reasonable.

Estimate	Accounting Policy	Management's Estimation Process	Basis for Our Conclusions on Reasonableness of Estimate
Workers' Compensation Claims and Incurred But Not Reported (IBNR) Liability	The Water Works records a liability for the estimated amount of payments to be made subsequent to year-end on known claims and incurred-but-not-reported claims based upon knowledge of the outstanding claims and past history of the claims.	The estimated liability is based on claim payment history and lag report data, and indicated reserves as established by the third-party administrator using various judgments and assumptions.	We analyzed management's methodology and reviewed the claims reports and concluded the estimates are reasonable.

Exhibit A—Significant Written Communications between Management and Our Firm

June 14, 2016

RSM US LLP
400 Locust Street
Suite 640
Des Moines, IA 50309

This representation letter is provided in connection with your audit of the basic financial statements of Des Moines Water Works, Des Moines, Iowa as of and for the year ended December 31, 2015 for the purpose of expressing an opinion on whether the financial statements are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

We confirm, to the best of our knowledge and belief, that as of June 14, 2016:

Financial Statements

1. We have fulfilled our responsibilities, as set out in the terms of the audit arrangement letter dated March 1, 2016, for the preparation and fair presentation of the financial statements referred to above in accordance with U.S. GAAP.
2. We acknowledge our responsibility for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
3. We acknowledge our responsibility for the design, implementation and maintenance of internal control to prevent and detect fraud.
4. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable and reflect our judgment based on our knowledge and experience about past and current events, and our assumptions about conditions we expect to exist and courses of action we expect to take.
5. Related-party transactions, including those with other organizations for which the nature and significance of their relationship with Des Moines Water Works are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete, and interfund transactions, including interfund accounts and advances receivable and payable, sale and purchase transactions, interfund transfers, long-term loans, leasing arrangements and guarantees, have been recorded in accordance with the economic substance of the transaction and appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.
6. There are no events subsequent to the date of the financial statements and for which U.S. GAAP requires adjustment or disclosure.
7. The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with U.S. GAAP.

8. The following have been properly recorded and/or disclosed in the financial statements:
 - a. Arrangements with financial institutions involving restrictions on cash balances have been properly disclosed.
 - b. Net position classifications.
 - c. Expenses have been appropriately classified in the statement of revenues, expenses and change in net position.
 - d. Future changes in accounting pronouncements for GASB Statements Nos. 72, 75 and 82, which have been issued, but which we have not yet adopted. GASB Statement Nos. 73, 74, 76, 77, 78, 79, 80 and 81 are not disclosed in the financial statements since the pending standards are not expected to significantly impact Des Moines Water Works' financial statements.
9. We agree with the findings of specialists in evaluating the City's investment valuations, self-insurance liabilities and other postemployment benefits liability under GASB Statement No. 45, and pension related obligations and disclosures, and have adequately considered the qualifications of the specialists in determining the amounts and disclosures used in the financial statements and underlying accounting records. We did not give or cause any instructions to be given to specialists with respect to the values or amounts derived in an attempt to bias their work, and we are not otherwise aware of any matters that have had an impact on the independence or objectivity of the specialists.
10. We have no direct or indirect legal or moral obligation for any debt of any organization, public or private, that is not disclosed in the financial statements.
11. We have complied with all aspects of contractual agreements that would have a material effect on the financial statements in the event of noncompliance. In connection therewith, we specifically represent that we are responsible for determining that we are not subject to the requirements of the Single Audit Act and Subpart F of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements of Federal Awards* because we have not received, expended or otherwise been the beneficiary of the required amount of federal awards during the period of this audit.
12. We have no knowledge of any uncorrected misstatements in the financial statements.

Information Provided

13. We have provided you with:
 - a. Access to all information of which we are aware that is relevant to the preparation and fair presentation of the financial statements such as records, documentation and other matters;
 - b. Additional information that you have requested from us for the purpose of the audits;
 - c. Unrestricted access to persons within the entity from whom you determined it necessary to obtain audit evidence; and
 - d. Minutes of the meetings of the governing board and committees, or summaries of actions of recent meetings for which minutes have not yet been prepared.

14. All transactions have been recorded in the accounting records and are reflected in the financial statements.
15. We have disclosed to you the results of our assessment of risk that the financial statements may be materially misstated as a result of fraud.
16. We have no knowledge of allegations of fraud or suspected fraud affecting the Des Moines Water Works' financial statements involving:
 - a. Management.
 - b. Employees who have significant roles in internal control.
 - c. Others where the fraud could have a material effect on the financial statements.
17. We have no knowledge of any allegations of fraud or suspected fraud affecting the Des Moines Water Works' financial statements received in communications from employees, former employees, analysts, regulators or others.
18. We have no knowledge of noncompliance or suspected noncompliance with laws and regulations whose effects were considered when preparing financial statements.
19. We have disclosed to you all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements.
20. We have disclosed to you the identity of the Des Moines Water Works' related parties and all the related-party relationships and transactions of which we are aware.
21. We are aware of no significant deficiencies, including material weaknesses, in the design or operation of internal controls that could adversely affect the Des Moines Water Works' ability to record, process, summarize and report financial data.
22. We are aware of no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.
23. During the course of your audits, you may have accumulated records containing data that should be reflected in our books and records. All such data have been so reflected. Accordingly, copies of such records in your possession are no longer needed by us.

Supplementary Information

24. With respect to management's discussion and analysis, pension, and postemployment information presented as required by Governmental Accounting Standards Board to supplement the basic financial statements:
 - a. We acknowledge our responsibility for the presentation of such required supplementary information.
 - b. We believe such required supplementary information is measured and presented in accordance with guidelines prescribed by accounting principles generally accepted in the United States of America.

- c. The methods of measurement or presentation for the pension schedules have changed from those used in the prior period due to the implementation of GASB Statement Nos. 68 and 71.

Compliance Considerations

25. In connection with your audit, conducted in accordance with *Government Auditing Standards*, we confirm that management:
- a. Is responsible for compliance with the laws, regulations and provisions of contracts and grant agreements applicable to Des Moines Water Works.
 - b. Is responsible for compliance with the laws, regulations and provisions of contracts and grant agreements applicable to the auditee.
 - c. Is unaware of any instances that have occurred or are likely to have occurred, of fraud and noncompliance with provisions of laws and regulations that have a material effect on the financial statements or other financial data significant to the audit objectives, and any other instances that warrant the attention of those charged with governance.
 - d. Is unaware of any instances that have occurred or are likely to have occurred, of noncompliance with provisions of contracts and grant agreements that have a material effect on the determination of financial statement amounts or other financial data significant to the audit objectives.
 - e. Is unaware of any instances that have occurred or are likely to have occurred of abuse that could be quantitatively or qualitatively material to the financial statements or other financial data significant to the audit objectives.
 - f. Is responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
 - g. Acknowledges its responsibility for the design, implementation and maintenance of internal controls to prevent and detect fraud.
 - h. Has a process to track the status of audit findings and recommendations.

This representation letter is provided in connection with your audits of the statements of cash receipts and disbursements (financial statements) of the Board of Water Works Trustees, Billing and Collection Agent for the Sewer Service, Solid Waste Collection and Storm Water Management Charges for the City of Des Moines, Iowa (the Agent) for the years ended December 31, 2015 and 2014, and the related notes to the financial statements, for the purpose of expressing an opinion on whether the financial statements are presented fairly, in all material respects, in accordance with the cash basis of accounting described in Note 2 to the financial statements.

We confirm, to the best of our knowledge and belief, that as of June 14, 2016:

Financial Statements

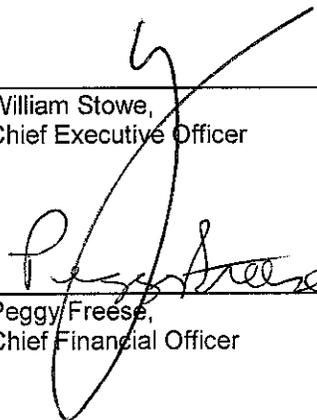

1. The financial statements referred to above are prepared on the cash basis of accounting, as described in Note 2 to the financial statements (hereafter, cash basis of accounting), which is a basis of accounting other than accounting principles generally accepted in the United States of America.
2. We have fulfilled our responsibilities, as set out in the terms of the audit arrangement letter dated March 1, 2016, for the preparation and fair presentation of the financial statements referred to above in accordance with the cash basis of accounting.
3. We acknowledge our responsibility for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
4. We acknowledge our responsibility for the design, implementation and maintenance of internal control to prevent and detect fraud.
5. Related-party relationships and transactions have been appropriately accounted for in accordance with the requirements of the cash basis of accounting and disclosed adequately to achieve fair presentation.
6. There are no events subsequent to the date of the financial statements for which disclosure is necessary for fair presentation.
7. There are no known actual or possible litigation or claims to be accounted for in accordance with the cash basis of accounting.
8. We have complied with all aspects of contractual agreements with the City of Des Moines, Iowa, that could have a material effect on the financial statements in the event of noncompliance.
9. We have no knowledge of any uncorrected misstatements in the financial statements.

Information Provided

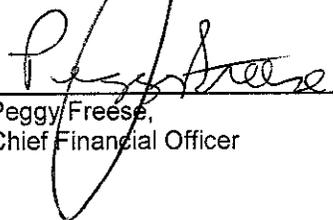

10. We have provided you with:
 - a. Access to all information of which we are aware that is relevant to the preparation and fair presentation of the financial statements such as records, documentation and other matters;
 - b. Additional information that you have requested from us for the purpose of the audits;
 - c. Unrestricted access to persons within the Agent from whom you determined it necessary to obtain audit evidence.
11. There are no minutes of the meetings of stockholders, directors and committees of directors, or summaries of actions of recent meetings for which minutes have not yet been prepared, other than those of the Des Moines Water Works' minutes which have been provided.
12. All transactions have been recorded in the accounting records and are reflected in the financial statements.
13. We have disclosed to you the results of our assessment of risk that the financial statements may be materially misstated as a result of fraud.
14. We have no knowledge of allegations of fraud or suspected fraud affecting the Agent's financial statements involving:
 - a. Management.
 - b. Employees who have significant roles in internal control.
 - c. Others where the fraud could have a material effect on the financial statements.
15. We have no knowledge of any allegations of fraud or suspected fraud affecting the Agent's financial statements received in communications from employees, former employees, analysts, regulators or others.
16. We have no knowledge of noncompliance or suspected noncompliance with laws and regulations whose effects should be considered when preparing financial statements.
17. We are not aware of any pending or threatened litigation and claims whose effects should be considered when preparing the financial statements and we have not consulted legal counsel concerning litigation or claims.
18. We have disclosed to you the identity of the Agent's related parties and all the related-party relationships and transactions of which we are aware.
19. We are aware of no significant deficiencies, including material weaknesses, in the design or operation of internal controls that could adversely affect the Agent's ability to record, process, summarize and report financial data.
20. There have been no communications from regulatory agencies concerning noncompliance with, or deficiencies in, financial reporting practices.

21. During the course of your audits, you may have accumulated records containing data that should be reflected in our books and records. All such data have been so reflected. Accordingly, copies of such records in your possession are no longer needed by us.

**Exhibit B—Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

RSM US LLP

**Report on Internal Control Over Financial
Reporting and on Compliance and Other Matters Based on an
Audit of Financial Statements Performed in Accordance With
Government Auditing Standards**

Independent Auditor's Report

Board of Water Works Trustees
Des Moines Water Works
Des Moines, Iowa

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and fiduciary fund of the Des Moines Water Works (Water Works) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the Water Works' basic financial statements, and have issued our report thereon dated June 14, 2016. The beginning net position was restated due to the implementation of GASB Statement Nos. 68 and 71, to recognize a net pension liability and deferred outflows of resources. The financial statements of the Water Works' pension trust fund were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the pension trust fund.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Water Works' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Water Works' internal control. Accordingly, we do not express an opinion on the effectiveness of the Water Works' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Water Works' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Water Works' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Water Works' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Board of Water Works Trustees,
Billing and Collection Agent for the
Sewer Service Charges for the
City of Des Moines, Iowa**

Statements of Cash Receipts and Disbursements
For the Years Ended December 31, 2015 and 2014
(With Independent Auditor's Report Thereon)

RSM US LLP

Independent Auditor's Report

Board of Water Works Trustees,
Billing and Collection Agent for the
Sewer Service Charges for the
City of Des Moines, Iowa

Report on the Financial Statements

We have audited the accompanying statements of cash receipts and disbursements of Board of Water Works Trustees, Billing and Collection Agent for the Sewer Service Charges for the City of Des Moines, Iowa (the Agent), for the years ended December 31, 2015 and 2014, and the related notes to the financial statements (collectively, the financial statements).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above presents fairly, in all material respects, the cash receipts and disbursements of the Agent for the years ended December 31, 2015 and 2014, in accordance with the cash basis of accounting described in Note 2.

Emphasis of Matter

As described in Note 1, the financial statements were prepared for the purpose of complying with a contractual agreement with the City of Des Moines, Iowa. The statements do not purport to, and do not present fairly the financial position of the Board of Water Works Trustees or the Des Moines Water Works as of December 31, 2015 and 2014, and the changes in its financial position for the years then ended, in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

**Board of Water Works Trustees, Billing and Collection Agent
For the Sewer Service Charges for the City of Des Moines, Iowa**

Notes to Statements of Cash Receipts and Disbursements

Note 1. Reporting Entity and Nature of Business

The statements of cash receipts and disbursements included in this report reflect only the cash receipts and disbursements related to the agreement with the Des Moines Water Works and the City of Des Moines, Iowa for billing and collection agent service charges for sewer.

The Des Moines Water Works serves as the billing and collection agent for the sewer service charges for the City of Des Moines, Iowa. Billings are prepared monthly in conjunction with water bills and are billed subsequent to the service period covered.

Note 2. Basis of Accounting

These statements are prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America; therefore, uncollected billings for sewer service charges of \$2,691,277 and \$2,600,965 as of December 31, 2015 and 2014, respectively, are not reflected in the statements of cash receipts and disbursements.

RSM US LLP

Independent Auditor's Report

Board of Water Works Trustees,
Billing and Collection Agent for the
Solid Waste Collection Charges for the
City of Des Moines, Iowa

Report on the Financial Statements

We have audited the accompanying statements of cash receipts and disbursements of Board of Water Works Trustees, Billing and Collection Agent for the Solid Waste Collection Charges for the City of Des Moines, Iowa (the Agent), for the years ended December 31, 2015 and 2014, and the related notes to the financial statements (collectively, the financial statements).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above presents fairly, in all material respects, the cash receipts and disbursements of the Agent for the years ended December 31, 2015 and 2014, in accordance with the cash basis of accounting described in Note 2.

Emphasis of Matter

As described in Note 1, the financial statements were prepared for the purpose of complying with a contractual agreement with the City of Des Moines, Iowa. The statements do not purport to, and do not present fairly the financial position of the Board of Water Works Trustees or the Des Moines Water Works as of December 31, 2015 and 2014, and the changes in its financial position for the years then ended, in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Notes to Statements of Cash Receipts and Disbursements

Note 1. Reporting Entity and Nature of Business

The statements of cash receipts and disbursements included in this report reflect only the cash receipts and disbursements related to the agreement with the Des Moines Water Works and the City of Des Moines, Iowa for billing and collection agent service charges for solid waste collection (which includes yard waste).

The Des Moines Water Works serves as the billing and collection agent for the solid waste collection charges for the City of Des Moines, Iowa. Billings are prepared monthly in conjunction with water bills and are billed in advance of the service period covered.

Note 2. Basis of Accounting

These statements are prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America; therefore, uncollected billings for solid waste collection charges of \$946,221 and \$941,273 as of December 31, 2015 and 2014, respectively, are not reflected in the statements of cash receipts and disbursements.

(With Independent Auditor's Report Thereon)

Independent Auditor's Report

Board of Water Works Trustees,
Billing and Collection Agent for the
Storm Water Management Charges for the
City of Des Moines, Iowa

Report on the Financial Statements

We have audited the accompanying statements of cash receipts and disbursements of Board of Water Works Trustees, Billing and Collection Agent for the Storm Water Management Charges for the City of Des Moines, Iowa (the Agent), for the years ended December 31, 2015 and 2014, and the related notes to the financial statements (collectively, the financial statements).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above presents fairly, in all material respects, the cash receipts and disbursements of the Agent for the years ended December 31, 2015 and 2014, in accordance with the cash basis of accounting described in Note 2.

Emphasis of Matter

As described in Note 1, the financial statements were prepared for the purpose of complying with a contractual agreement with the City of Des Moines, Iowa. The statements do not purport to, and do not present fairly the financial position of the Board of Water Works Trustees or the Des Moines Water Works as of December 31, 2015 and 2014, and the changes in its financial position for the years then ended, in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Notes to Statements of Cash Receipts and Disbursements

Note 1. Reporting Entity and Nature of Business

The statements of cash receipts and disbursements included in this report reflect only the cash receipts and disbursements related to the agreement with the Des Moines Water Works and the City of Des Moines, Iowa for billing and collection agent service charges for storm water.

The Des Moines Water Works serves as the billing and collection agent for the storm water management charges for the City of Des Moines, Iowa. Billings are prepared monthly in conjunction with water bills and are billed subsequent to the service period covered.

Note 2. Basis of Accounting

These statements are prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America; therefore, uncollected billings for storm water management charges of \$1,825,434 and \$1,661,007 as of December 31, 2015 and 2014, respectively, are not reflected in the statements of cash receipts and disbursements.
