January Meeting Agenda

The Committee discussed possible agenda items and agreed to invite Ted Corrigan, Director of Water Distribution at Des Moines Water Works and Carl Rogers, Associate Professor at Iowa State University Department of Landscape Architecture, to make a presentation about *Parkitecture* at the January meeting. *Parkitecture* is a two-stage international design competition focused on the design of connections in and around Water Works Park and the Raccoon River, as well as the role Des Moines Water Works plays in providing the water supply for the metropolitan area.

It was decided that Linda Kinman would also be asked to provide an update on the Raccoon River Master Plan and a Legislative Forecast. Additionally, officers will be elected in January.
